# WELCOME TO CORCORTEZ FLORAL

With a passion for nature and floral design, Corcortez is able to create truly unique floral designs for every event. Our approach to flowers embraces a wild, romantic look with the belief that floral arrangements should display their natural beauty without feeling stuffed or overdone.

Corcortez's signature look incorporates large romantic blooms, fruiting branches, various types of foliage and fruits sourced from local forests and fields. Foraging from the local environment allow us to ensure that our designs are extensions of the surroundings, creating a bridge between nature and the design itself. When designing flowers, our goal is for flowers to continue to grow and flourish in their own unique design, rather than to appear restricted and without life.

The work of Corcortez Floral has appeared in publications including Brides UK, Once Wed, Wedding Sparrow, Ruffled Blog, Green Wedding Shoes and others.

Let us create something exquisite together and build unforgettable memories for you and your guests.
